For the 2500 people who saw the exhibition in March 2007 and for those that intend to see it whilst it tours nationally, this special **LIMITED EDITION** book can be a lasting reminder for you! *Fusion Six* are extremely proud of this **NOT FOR SALE** exhibition that explores a startlingly original approach in concept portraiture and a brave, challenging and honest expression of a shared journey.

What gives such power and authenticity to the exhibition and book is the unique point of view from which the works are created: In **About Face** the artist is not merely recording this process but germinal to it - both subject and artist, at once looking out and looking in.
